STATEMENT OF INVESTMENT POLICY
Amended and Restated As of September 21, 2023

I. AUTHORITY

In accordance with the Agreement and Declaration of Trust creating the Florida Municipal Investment Trust, dated April 28, 1993, and as subsequently amended, the Board of Trustees shall have the exclusive and absolute control over the Trust property and the affairs of the Trust. Pursuant to Article IV, Section 2., Investments, of the Agreement and Declaration of Trust, the Board of Trustees shall have the power to subscribe for, invest in, reinvest in, purchase or otherwise acquire, own, hold, pledge, sell, assign, transfer, exchange, distribute, lend or otherwise deal in or dispose of investments of every nature and kind, provided such investment is, in the sole and absolute discretion of the Board of Trustees, consistent with this Statement of Investment Policy, as most recently amended or supplemented, and to exercise any and all rights, powers and privileges of ownership or interest with respect to any and all such investments of every kind and description, including without limitation, the right to consent and otherwise act with respect thereto, with power to designate one or more persons, firms, associations or corporations to exercise any of said rights, powers and privileges with respect to any of said investments.

II. SCOPE AND PURPOSE

All financial assets held or controlled by the Trust, not otherwise classified as restricted assets by the Board of Trustees, shall be invested under the guidelines as herein set forth. No person may engage in any investment transaction with funds held in a trust relationship by the Trust, except as authorized by the Board of Trustees. The policies and procedures herein are intended to provide sufficient latitude and operating flexibility to respond to changing market and economic conditions and to effectively manage the Trust's assets so as to maximize the expected return on assets within an acceptable exposure to investment risk. There are times when risks of specific investments may temporarily increase such that the Trust may be required to operate under a more restrictive policy. In such cases, the authority to use more restrictive policies shall be disclosed in the Trust's Informational Statements. Additionally, at times, exceptions to the policy may need to be made, on a case-by-case basis, and with the approval of the Board of Trustees.

III. OBJECTIVES

The objectives of the Trust's investment program will vary in accordance with each of the investment portfolio's objectives which are described in the Trust's Informational Statements. The Trust's holdings shall be generally diversified relative to a broad market standard and both market and nonmarket risk shall be monitored and acted upon to avoid or minimize potential losses. Short-term holdings of the Trust shall be of high quality and ready marketability with maturities diversified appropriately with respect to the current operating expenses and expected cash flow obligations of the Trust's portfolios. The Trust's portfolios are generally designed to attain a market rate of return throughout financial and economic cycles, taking into account each Trust portfolio's investment objectives, risk constraints and permitted investments as referenced in the Informational Statements.

IV. DUTIES AND RESPONSIBILITIES

Under the direction of the Board of Trustees, it shall be the responsibility of the Administrator to supervise and administer the Trust's investment program pursuant to a written agreement between the Trust and the Administrator including, but not limited to, the following:

2. Provide advice and assistance in the administration and operation of the Trust's investment program and portfolios.
3. Establish accounting systems and procedures for the safekeeping, disposal of and recording of all investment assets held or controlled by the Trust including the establishment of appropriate internal controls as required.
4. Assist in the design, development, operation, review and evaluation of the Trust's investment program for compliance with this policy. Advise the Board of Trustees as to recommendations relative to

amendments to this policy. Inform the Board of Trustees of unaddressed concerns with the Trust's investment program.

5. Immediately notify the Board of Trustees in the event of any information that may have a severe and adverse effect on the Trust's investment program under the provisions of the Administration Agreement or of this policy.
6. Coordinate with the Trust's professional advisers in designing investment portfolios to meet the needs of Trust members and in establishing appropriate levels of investment risk and liquidity for meeting current and projected obligations of the Trust's investment portfolios.

V. PRUDENCE AND ETHICS

The standard of prudence to be used by professional investment advisers, money managers or other qualified parties or individuals with contracted investment responsibilities with the Trust (the "Managers") shall be by "prudent person" which provides that the investments of the Trust shall be made with the judgment and care under the circumstances then prevailing which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not in regard to speculation but in regard to the permanent disposition of the invested funds considering the probable income, total return and probable safety of these funds. Managers shall adhere to the fiduciary standards set forth in the Employee Retirement Income Security Act of 1974 at 29 U.S.C. s. 1104(a)(1)(A) through (C). Individuals, acting in accordance with established procedures and exercising due diligence, shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to minimize any investment losses.

Any individual who is involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Managers shall have a written policy which addresses the disclosure of potential conflict-of-interests which shall be submitted to the Administrator upon request. Managers shall also disclose to the Administrator any material financial/investment position or finding which may be contrary to this policy or otherwise related to the performance of the Trust's portfolios. Any adverse findings of the U.S. Department of Labor and/or the Securities and Exchange Commission regarding a Manager or its financial activities shall be brought to the immediate attention of the Board of Trustees.

Before engaging in any investment transactions on behalf of the Trust, a Manager shall have submitted to the Administrator a signed certification from a duly authorized representative attesting that the individuals responsible for the Trust's account have reviewed this investment policy and that they agree to undertake reasonable efforts to preclude imprudent transactions involving the assets of the Trust.

In compliance with Section 218.415 Florida Statutes, investment decisions are to be based upon pecuniary factors which consider overall objectives relative to potential risks of financial loss or gain. As used herein, the term "pecuniary factor" means a factor that the Administrator, investment managers, named fiduciary, or Board of Trustees prudently determines is expected to have a material effect on the risk or returns of an investment based on appropriate investment horizons consistent with applicable investment objectives and funding policy. The term does not include the consideration of the furtherance of any social, political, or ideological interests. When deciding whether to invest and when investing funds, the decision must be based solely on pecuniary factors and it may not subordinate the interests of the people of this state to other objectives, including sacrificing investment risk to promote any nonpecuniary factor. The weight given to any pecuniary factor must appropriately reflect a prudent assessment of its impact on risk or returns.

VI. REPORTING AND PERFORMANCE

The Administrator shall submit to the Board of Trustees a periodic investment report with information sufficient to provide for a comprehensive review of investment activity and performance for the quarter. This report summarizes recent market conditions, economic developments and anticipated investment conditions. The report would also summarize the investment strategies employed in the most recent quarter, and describe the Trust's portfolios in terms of investment securities, maturities, risk characteristics and other relevant features.

Managers shall provide timely transaction and performance data to record and document investment activity including asset valuation, yield and total return data and such other relative performance data of the Trust's portfolios on a periodic basis as may be reasonably requested by the Administrator.

The Administrator, Managers, and other contracted parties shall provide to the Trust's Auditor such verifications or reports as are required for the purpose of developing and supporting the annual financial statements of the Trust, and the footnotes thereto.

The Administrator shall recommend and provide appropriate performance measures or indices in evaluating the performance of the Trust's portfolios. The Administrator shall monitor portfolio performance and determine the applicability of the indices and recommend changes as needed.

VIII. SAFEKEEPING AND CUSTODY

All securities purchased by the Trust under this policy shall be properly designated as assets of the Trust and shall be protected through the use of a third-party custody/safekeeping agent. The Administrator on behalf of the Trust shall enter into a formal agreement with an institution of such size and expertise as is necessary to provide the services needed to protect and secure the investment assets of the Trust and as set forth by the Agreement and Declaration of Trust and/or the Board of Trustees.

All securities purchased by the Trust under this policy shall be purchased using the "delivery versus payment" procedure if applicable. If it is ever determined to be necessary to perform security transactions on a "free delivery" basis, or to have securities held by the broker/dealer for a temporary period, the approval of the Administrator must be secured prior thereto and the reason documented in writing and presented to the Board of Trustees.

IX. RISKS

The Trust recognizes that investment risks can result from numerous factors including business and industry specific risk, market risk, credit risk, liquidity risk, reinvestment risk, etc. . . . Managers are expected to display prudence in the selection of securities and in the diversification of portfolios as a way to minimize risk. In order to effectively monitor and manage risk, the Trust has detailed portfolio guidelines that define the style and strategy of each investment portfolio, the allowable investment securities for that particular portfolio and the restrictions or constraints that must be adhered to in the management of each particular portfolio. Compliance with the Investment Policy and Guidelines is monitored by the Trustees based on data provided by the Administrator, the investment manager, the custodian bank and the investment consultant. In the event that a portfolio is out of compliance with guidelines, the Investment Manager shall immediately notify the Administrator and shall provide recommendations for rectifying any non-compliance with this policy within five business days of discovery of the non-compliance.
